

ALTIUS WINDOW & DOOR SERIES

Engineered for Colorado Homes

Available exclusively through

JDI
WINDOWS

SIMONTON & JDI WINDOWS. A MATCH MADE IN... COLORADO!

JDI Windows and Doors teamed with Simonton Windows, a proven leader in Vinyl window technologies to offer the exclusive Altius product line designed for the Colorado Climate. These superior features offer exceptional performance in the punishing Colorado environment. We're so confident with the windows that we back it up with the best warranty in the industry.

OUR MISSION

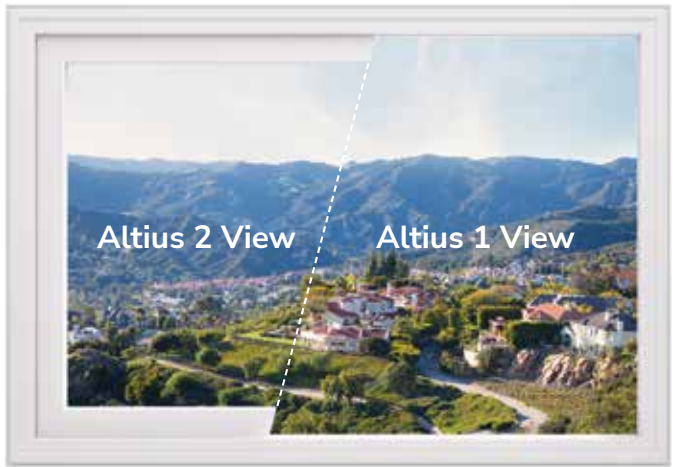

JDI Windows offers Vinyl Window and Sliding Patio Door Replacement in the Denver metro area. We specialize in windows and doors that increase energy, saving you money for years to come. JDI Windows is a proud member of the Denver/Boulder Better Business Bureau for several years. We have been awarded the BBB's Gold Star Certificate for adhering to the BBB membership standards and having no complaints every year since we joined. JDI Windows was established in 1997 with a team who has over 100 years of combined experience in the Denver window and door industry. We have a long-standing tradition of family-owned business where values of integrity, customer service, and hard work define our company. JDI Windows is an install driven company vs. a sales driven company. Meaning, our business will grow through 5 star references, rating, and reviews. More than half of our business is from repeat customers and referrals. Customer satisfaction is very important to us and we are proud to display several hundred of our customer testimonials on our website and review sites to stand behind that claim. If you decide to hire us for your next window replacement project, you can expect one of our trained professionals to meet with you so we can better understand and evaluate your home improvement request, explain the best and most affordable options to you so you can make an informed decision, and then we will perform the work the right way, the first time. Your satisfaction is GUARANTEED!

FEATURES DESIGNED TO FIGHT THE ELEMENTS

The features built into the Colorado Altius Window Package will make you think twice about other brand name window choices.

40% more natural sunlight, with the largest glass viewing area of any vinyl replacement window.

Stainless Steel Casement and Awning Operating Hardware

Providing superior performance and corrosion protection in Colorado environments.

Non-Corrosive Nylon Rollers

JDI utilizes the least corrosive materials available, like nylon rollers with stainless steel axles and an aluminum reinforced frame that will not rust. And Double-Strength Glass will withstand more punishment from Mother Nature.

Single & Double-Hung Windows Tilt In For Easy Cleaning.

They also use the latest constant force balance systems for reliable and uniform opening and closing pressure.

ALTIVS 1 SINGLE HUNG

ALTIVS 2 DOUBLE HUNG

ALTIVS 3 CASEMENT

Strength

Heavy duty multi-chambered, dual-wall extrusion provides needed rigidity, insulation and durability

Design

Low-profile, exterior master frame enhances aesthetic appeal and water management

Protection

Heavy-duty, fin-seal weatherstripping adds dual and triple seals against air and water infiltration on frame and sash

Security

Positive interlock system creates the ultimate weather seal and enhances security at the meeting rail

Protection

You can also add double-strength glass if needed in your area

Engineering

Unique, internal sash weep system drains efficiently, to preserve glass seal life

Design

Dual sash pull rails for easier opening and closing in tight areas or getting around larger furniture pieces

Slider Windows Only

Altius utilizes the least corrosive materials available, like nylon rollers with stainless steel axles and an aluminum reinforced frame that will not rust.

OTHER ALTIUS FEATURES. . .

1. MAXIMUM DAYLIGHT

Larger glass viewing area provides up to 40% more daylight than wide-frame windows.

2. LOW-PROFILE FRAME

Narrow frame and interlock provide superior thermal performance and energy efficiency.

3. DURABLE CONSTRUCTION

Fusion-welded, one-piece frame provides unmatched durability, longevity and performance.

DOUBLE-STRENGTH GLASS

Thick, double-strength glass is break resistant and offers increased sound control.

SOUND-ABATEMENT GLASS

If you live in a noisy area, ask about specialty glass designed to reduce unwanted noise infiltration.

GAS FILL

Argon gas (six times denser than air) is sealed between the glass panes to increase insulation and reduce energy loss.

4. SUPERIOR SEAL

Weep holes are covered by small baffles, providing superior protection against insect intrusion. No wind or rain blow back and reduced drafts. People care about 9 pcs of Weatherstrip that help eliminate drafts and dirt.

5. CUSTOM FIT

Custom sizes ensure a perfect fit for virtually any application around your home.

6. BUILT FOR LONGEVITY

Integrated Pull Rails (IPR) allow you to handle the screen from anywhere along the edge and will never break off like pull tabs can.

SPACER SYSTEMS

Glass panes are separated by a spacer system that helps seal in functional gases and create an airtight seal.

The non-metallic foam Super Spacer® is non-conductive and reduces energy transference and unwanted noise.

7. GLASS PACKAGES

Glass packages available AR3
Three Coats LowE & Argon Gas
U-factor range of: .25-29
SHGC range of: .18-25

Explore Window Operating Styles

SINGLE HUNG

Single Hung windows provide a timeless and classical aesthetic. The bottom sash slides vertically and tilts in for easy cleaning from inside the home.

SINGLE SLIDER

Slider windows glide horizontally to increase ventilation. Available in 2- or 3-lite configurations.

END VENT SLIDER

3-lite Sliders have a fixed center window with operable end vents, delivering an expanded opening that allows for more daylight and better air flow.

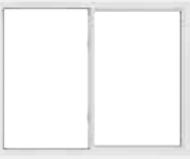

CASEMENT

Casements offer maximum ventilation and are the most energy-efficient windows available. The crank-operated hinged sash opens easily outward and can be cleaned from inside when fully opened.

DOUBLE HUNG

Double-hung windows can be opened from both the top and bottom sashes, allowing you to control the amount and direction of airflow.

DOUBLE SLIDER

Like double-hung windows, double sliding windows enable you to control the amount and direction of airflow by sliding either or both sashes horizontally.

PICTURE

Picture windows offer an expansive, unhindered view. Because they are fixed in place with no moveable sash, they deliver superior weather resistance.

SPECIALTY SHAPES

Available in a variety of circular, arched and linear designs.

SPECIALTY SHAPES

Available in a variety of circular, arched and linear designs, Operable Specialty Shape windows provide a unique, custom look that highlights your homes.

AWNING

Awning windows are hinged at the top and open outward. Turn the crank handle and enjoy fresh air, even when it's raining.

MULLED WINDOWS

Select DaylightMax Collection windows can be mulled together into a single unit.

Grille patterns can be customized to complement any home.

COLONIAL
Ideal for Colonial-, Cape Cod-, Farmhouse- or Victorian-style homes.

PERIMETER
Ideal for Prairie-style homes.

DOUBLE PERIMETER
Ideal for more ornate Prairie-style homes.

VICTORIAN
Ideal for Victorian- or Craftsman-style homes.

QUEEN ANNE
Ideal for Queen Anne- or Victorian-style homes.

DOUBLE QUEEN ANNE
Ideal for Queen Anne- or Victorian-style homes.

5/8" Flat

1" Contoured

Altius 1 Patio Door

This patio door boasts a sleek, streamlined profile. The broad expanse of glass afforded by a narrower panel frame results in larger sight lines for a clean, unobstructed view. All Altius Patio Doors come with stainless steel rollers as standard.

Altius 2 Patio Door

The door features a wide stile and rail design that provides the elegant look of a French Rail hinged patio door with the space-saving operation of a sliding patio door.

Contemporary Patio Door Handles
